

E9X HIGH DEPENDENCY BED

Enterprise 9000X

Designed for you and your patient

The new Enterprise 9000 hospital bed from Arjo delivers significant benefits to the patient, caregiver and healthcare facility. The daily challenges faced by nursing teams on hospital wards have inspired Arjo to improve upon an established solution, trusted by hospitals around the globe. In the development of the new Enterprise 9000 hospital bed, Arjo has focused on key customer needs common to all healthcare environments, namely:

- Safety for both patient and carer.
- Compliance with new international standards.
- Equipment that is robust, intuitive and easy to use.
- Solutions focused on the quality of care for patients.

The Enterprise 9000 bed for intensive care and high dependency patients, is based on the key features of the Enterprise 5000 and 8000 hospital beds, with additional focus on patient safety and clinical functionality. With its patented profiling system, integrated weighing scale, bed exit alarm and under-bed anti-entrapment sensors, the bed has been designed with the patient, caregiver and facility in mind.

Key Features

BIO-CONTOUR PROFILING
The patented Bio-Contour profiling system blends a unique combination of bed movements with a curved mattress deck.

3 STEP BED EXTENSION
Different bed lengths are now easily configurable in a single sub-frame, offering a simple to use, multi-length hospital bed for greater flexibility and choice.

UNDERBED LIGHT
The bed exit area on both sides of the bed is illuminated to help guide patients when leaving the bed in a poorly lit room.

INFECTION CONTROL
The open architecture design allows ease of access to help improve decontamination procedures. Deck sheets are lightweight, smooth and easily removed.

WEIGH SCALE
The simple to use integrated weigh scale can weigh up to 250 kg (550 lbs). Weighing can be carried out in any position, and items added or taken away using the autocompensation facility without affecting the patients weight.

ANTI-ENTRAPMENT SENSORS
The anti-entrapment sensors can detect an object/person underneath the bed. If the beam is interrupted whilst the mattress platform is being lowered, the mattress platform will automatically move up and away from the obstruction, reducing the risk of entrapment.

PIT STOP MAINTENANCE
Designed for 'Pit Stop Maintenance'- open accessibility means changes such as actuator, control box and battery can be carried out in situ within a few minutes by one person.

BED EXIT ALARM
When enabled, the bed exit function can detect patient movement at differing sensitivity levels and trigger an audible alarm to alert medical staff.

CARDIAC CHAIR POSITION
The caregiver can easily adjust the bed into a cardiac chair position with our simple to use control panel.

LOW HEIGHT
An exceptional low height of 320 mm (12.5 ins) is achieved via One-Button-Push.

30 DEGREE BACKREST ANGLE
The backrest will pause when raised or lowered to an angle of 30 degrees, ensuring easy and positive backrest adjustment time after time.

Optional:
IndiGo

INDIGO (OPTIONAL)
IndiGo is the powered 5th wheel that makes lighter transport available to any caregiver with just a touch - for safety and simplicity. IndiGo is always available and built directly into your Citadel or Enterprise bed.

DIMENSIONS	MEASUREMENT	ANGLES	MEASUREMENT	PRODUCT	MEASUREMENT
Overall standard length	2350 mm	Head down tilt	12°	Safe working load/Maximum patient weight	250 kg (551 ¼ lbs.) / 185 kg (407 lbs.)
Overall width	1030 mm	Foot down tilt	12°		
Mattress length standard	2020 mm	Backrest angle	62°	Head end panel 'off' base configuration	
Mattress width	880 mm	Backrest pause	30°	Safety standard	IEC60601-2-52
Overall extended length	2470 mm	Thigh angle	20°	ELECTRICAL	
Mattress extended length	2140 mm	Calf angle	16°	DATA	
Overall length short	2240 mm			Ingress protection	IPX4
Mattress length short	1910 mm			Shock protection	Class 1, Type B
Top height (with 125 mm castors)	760 mm			Power in	3 A max. at 230 V a.c. 50/60 Hz
Low height (with 125 mm castors)	320 mm			Power in	5.8 A max. 120 V a.c. 60 Hz
Backrest length	850 mm				
Seat length	215 mm				
Calf length	560 mm				
Thigh length	365 mm
